The 2 Fellas Story

2 Fellas & a Big Vehicle started in Tulsa Oklahoma in Steve Herburger's spare bedroom with a phone and his best friend Josh Keeler in 1996.

The first move the two business partners completed was just one piece of furniture in the back of convertible. The two, laugh about the thought of their first move in a convertible these days.

They knew there were only three other moving companies in the area at the time and there was a huge demand that needed to be met. It only took three months for them to hire their first employee and set out on their journey to meet their first year's goals.

Twenty year later they have completed over 100,000 moves and have four locations with their fifth set to open out of state in the Dallas market in the Winter of 2017.

Our Team Members

Steve Herburger

Steve Herburger was the Area Manager for Pizza Hut for ten years before he decided to take his management skills and team up with his friend Josh Keeler to start 2 Fellas & A Big Vehicle

During the startup of their business, Herburger and Keeler agonized over the name. They wanted something memorable. So they called a telephone operator and asked for a listing for "two fellas and a big vehicle."

"She started laughing, and we said 'that's the name we'll stick with,'" Herburger said.

So their journey began, and Steve has been the driving force behind operations and expanding into new markets every since.

Their first two new locations were placed in Steve's alumni towns, Stillwater and Enid. Steve attended both Enid High School and Oklahoma State University and was eager to boost his hometown's economy with his small business. He now has his sites set on larger markets.

Heidi Herburger

Heidi Herburger joined the "boys" club seventeen years ago when her husband decided it would be fun to work together plus they desperately needed someone to run the sales side of the business.

Heidi agreed to leave her District Manager position at Guess. At first, she didn't necessarily know what she had gotten herself into. She had no experience in the moving and storage industry, but was fast to gain first-hand experience when it came to learning the ropes. She admits to making many mistakes along the way but she knows that is what has grown the company into what it is today.

She use to go on every pack job herself but with the growth of the company you will catch her in the office or on the road these days. Her main focus is on sales for the company and handling client relationships with companies like The Oklahoma City Thunder. Every now and then you can see her on a job sight getting her hands dirty. If you want some solid moving stories just ask for a few of her favorites.

Press Release

NEW PROVIDED BY

2 Fellas & a Big Vehicle Moving Company

Oklahoma City, Nov 8 / 2 Fellas & a Big Vehicle Moving Company is an Oklahoma based company that is looking for franchisees throughout the United States.

This Oklahoma City owned family business of twenty-one years is looking for interested entrepreneurs who have interest in becoming their own boss and a business owner. 2 Fellas wants to increase their presence in this long standing and fast-growing industry.

Besides being in Oklahoma City, Two Fellas and a Big Vehicle Moving Company currently have locations in Tulsa, Enid and Stillwater, Ok and they are opening their first Dallas, Texas location this winter.

In 1996, two childhood friends came up with an idea. They wanted to open a moving company in Tulsa, Ok. Steve and Josh knew basically nothing about the moving industry when they first started. Since 1996 they have grown 2 Fellas into an established household name with a great reputation and a passion for modernizing an antiquated industry. Steve and Josh can now boast they have completed over 100,000 moves and gone from using a rental truck to owning over 30 moving trucks and pack vans.

The Company's philosophy in trying to find successful franchisees is getting people who are goal driven with an enthusiasm for success.

In the past 20 years, Steve and Josh have experiences all the hardships and growing pains of building a business from the ground up. Because of their combined experience, new franchisees will benefit from their knowledge and not have to make the same mistakes they did along the way.
